CORPORATE SOCIAL RESPONSIBILITY POLICY

In order to contribute to our region and our country, we set out in 1966 as Batı Anadolu Çimento Sanayii A.Ş. with 100% Turkish capital. For the development of our country, we have become one of the important industrial companies not only in the Aegean region but also in Turkey with the aim of achieving better. While working for the future of Turkey, we aim to touch individuals and add value to their lives by putting our social responsibilities at the forefront.

We have gathered all our activities to contribute to the development of Turkey's social sphere and to reflect the power we have achieved in the field of industry under the roof of "**Bati Anadolu Life-filled**".

In this context, our corporate social responsibility policy;

To continue our contributions to our region and our country in the field of education, health, culture, art and environment with the philosophy of "To give to this land what you have taken from this land".
